## SECTION B. SEXUAL BEHAVIOR

---

The following questions refer to your sexual behavior during the past eight weeks that is, from [CASI: INSERT TODAY'S DATE EIGHT WEEKS AGO] until today. We understand this topic is very personal, but every answer is important for the study. All of your answers will be kept confidential. For questions that ask the number of times, if you are unsure just give your best guess.

First, let's take a minute to review some words so it is clear what we are asking.

**[SCREEN TIPS WILL BE GENERATED FOR WORDS IN BOLD TO DISPLAY THEIR MEANINGS AND ALTERNATE PHRASES, AS PER THE FOLLOWING:]**

Penis is the male sex organ. Some people call it "dick" or "cock." Men and transgender people can have penises.

Vagina is the female sex organ. Some people call it "pussy." Women and transgender people can have vaginas.

Rectum and anus are frequently called "butt" or "asshole."

Anal sex is when someone puts their penis in another person's rectum or anus; some people call this "butt fucking."

Receptive anal sex is when you are penetrated or are the "bottom."

Insertive anal sex is when you penetrate your partner or are the "top."

Vaginal sex is when someone puts their penis into a vagina; some people call this "fucking" or "screwing" or "having sex."

Oral sex is when people put their mouth or tongue on each other's sex organs, including the penis, vagina or anus. When someone puts their mouth on a man's penis, some people call this a "blow job" or "fellatio." When someone puts their mouth on another person's anus, some people call this "rimming." When someone puts their mouth on another person's vagina, some people call this "cunnilingus."

As you go through the following questions, these words will sometimes appear in **bold**. If you are not sure what a word in bold means, use the mouse to place the arrow or cursor on the bolded word to see its meaning.

In some cases, these questions may not specifically apply to you. At the end of this section, you will have a space to enter comments.

## SEXUAL BEHAVIOR

First, we will ask you questions about your body.

1. Were you born with a **penis**?

  - 6. More than 20 cigarettes per day

## **SECTION F. RISK PERCEPTION**

---

1. Considering your usual sexual behavior, how likely is it that you will get HIV in your lifetime?

1. Very unlikely
2. Unlikely
3. Likely
4. Very likely

2. Why? \_\_\_\_\_

3. Considering your usual sexual behavior, how likely is it that you will get a sexually transmitted disease (STD), not including HIV, in the next year?

1. Very unlikely
2. Unlikely
3. Likely
4. Very likely

4. Why? \_\_\_\_\_

## **SECTION G. RECTAL MICROBICIDE LIKELIHOOD TO USE**

---

Scientists are developing new ways to prevent HIV transmission during sex.

1. If Truvada, a tablet that provides some protection against HIV, were available to you, how likely is it that you would take it every day?

1. Very unlikely
2. Unlikely
3. Likely
4. Very likely

2. If Truvada, a tablet that provides some protection against HIV, were available to you, how likely is it that you would take it before and after receptive anal sex? (Within 12 hours before and within 12 hours after receptive anal sex)

1. Very unlikely
2. Unlikely
3. Likely
4. Very likely

3. Of those two options, which would you prefer?

1. To take the Truvada tablet every day
2. To take the Truvada tablet before and after receptive anal sex

4. If tenofovir gel, a rectal microbicide gel, were available that provided some protection against HIV, how likely is it that you would use it every day?

1. Very unlikely
2. Unlikely
3. Likely
4. Very likely

5. If tenofovir gel were available that provided some protection against HIV, how likely is it that you would use it before and after receptive anal sex? (Within 12 hours before and up to 12 hours after receptive anal sex)

1. Very unlikely
2. Unlikely
3. Likely
4. Very likely

6. Of those two options, which would you prefer?

1. To use the tenofovir gel every day
2. To use the tenofovir gel before and after receptive anal sex

7. Thinking about how frequently you have receptive anal sex, which of the following methods would you prefer, if they provided the same protection against HIV? Please enter a different number next to each option: 1 = most preferred to 6 = least preferred.

1. I prefer to take the Truvada tablet every day
2. I prefer to take the Truvada tablet before and after receptive anal sex

3. I prefer to use tenofovir gel every day
4. I prefer to use tenofovir gel before and after receptive anal sex
5. I prefer to use a **rectal douche** every day
6. I prefer to use a **rectal douche** before and after receptive anal sex

Thank you for completing this questionnaire! Please notify the study staff that you are finished.
