

ARE YOU SURE YOUR DAUGHTER'S SAFE?

Do you have a daughter between the ages of 15-17 who is having sex? If so, we want to talk to you about THE VAGINAL RING -- an experimental HIV prevention device already proven safe in adult women. Montefiore is conducting a research study of girls who will use THE RING for three months and if eligible, your daughter will be paid for participating. Call or text Gloria at 347-346-1535 to learn more about this study.

Find out if she qualifies: www.mtnstopshiv.org/forms/mtn023bronx
