

HOPE Social Influence Supplement Administration Tool

PTID: _____

Date: _____

Instructions: This is an optional tool that can be used to aid in the administration of the Social Influences Supplement CRF at the PUEV visit (or early termination visit, as appropriate).

1. Review responses on the Social Influences Assessment to determine the relationship for each “person” on the Supplement (e.g. Person 1, Person 2, etc.) and record in the table below.
→ For example, record “husband/primary sex partner”, “mother”, “friend”, etc.
2. When administering the Social Influences Supplement, reference each “Person” by the relationship that was indicated on the Social Influences Assessment.
→ For example, ask “How well do you know your mother?”, if that was the relationship indicated for Person 1 on the Assessment form.

Person Number	Relationship based on Social Influences Assessment CRF
Person 1	
Person 2	
Person 3	
Person 4	
Person 5	

Staff Initial and Date: _____
