

## MTN-003 (VOICE) Operational Reminder Product Use Management: Hypophosphatemia (Per Protocol Version 1.0, LoA#2)

### Grade 1-3 Hypophosphatemia

- ❖ Product will not be routinely held for any Grade 1, Grade 2, and Grade 3 decreased phosphate result.
  - For Grade 3 decreased phosphate, product will only be held if any of the accompanying tests (serum creatinine testing and urine dipstick for protein/glucose) warrant product hold.
    - If the accompanying test warrants product hold, consult the PSRT ([mtn003safetymd@mtnstopshiv.org](mailto:mtn003safetymd@mtnstopshiv.org)) and follow the relevant protocol section 9.5

### Grade 4 Hypophosphatemia

- ❖ For Grade 4 decreased phosphate, hold product and consult the PSRT.
  - Continue product hold until hypophosphatemia returns to  $\leq$  Grade 2 and study product hold is not otherwise warranted (based on results from serum creatinine testing and urine dipstick for protein/glucose).
    - Product use will be initiated after consultation with the PSRT.

Remember: When in doubt, consult the PSRT.
