

### MTN 023 Text Message Schedule & Content

On 1 day each week, study participants will receive a research question related to their adherence to the vaginal ring via text message on their cell phone. Text messaging will also be used to send appointment reminders 2 business days before clinic appointments to provide participants a chance to change appointment time and date, if necessary.

A detailed schedule of the timing of these messages and their content is in the table, below.

Week	Adherence Text Message	Appointment Reminder Text Message
Screening	none	Hi! Remember u have an appointment at X:XX (time) on X (day). Please call xxx-xxx-xxxx (study or clinic phone #) if you need to change it. C u then!  <b>Note:</b> The Screening visit reminder may be omitted if visit takes place concurrently (i.e. same day) with recruitment visit.
