

MTN-042 Data Communiqué #10 – August 8th, 2022

This is official study documentation for MTN-042. Please circulate it among relevant staff for their review, print it, and place it in your MTN-042 SSP Manual in the Data Communiqués section. This document is considered part of the MTN-042 SSP manual.

UPDATES

Database Updates

The MTN042_C3 (cohort 3) Medidata Rave database was migrated to version 2.0 (3975) on 8-August-2022.

The migration included changes to the following study case report forms:

Pregnancy Assessment

The incorrect system query firing on Estimated Date of Delivery field when a future date is entered has been removed.

The migration also included updates to the Add Event menu:

Add Event

Options to add Physical Exam, Vital Signs, and Vaginal Practices CRFs to Enrollment visit folder have been added. When needed, sites can use the Add Events dropdown menu on the main page to add these CRFs for all applicable participants.

An updated complete set of blank eCRFs will be posted to the MTN-042 ATLAS webpage.
