Wash your hands with soap and water.

Open the bottle by pushing the cap down while turning to the left.

The first time the bottle is opened, there will be a seal covering the bottle. Remove and discard this seal.

Inside the bottle, there will be cotton wool. Remove and discard this cotton wool.

There is a sealed container inside the bottle that helps keep the tablets dry. Do not open this container, swallow it, or remove it from the bottle.

Remove one tablet from the bottle when taking one tablet each day.

After removing the tablet, close the bottle tightly by replacing the cap and turning it to the right.

Put one tablet in your mouth and swallow it with water or other non-alcoholic beverage.
• **Take one dose (one tablet) by mouth every day**
  - Take one dose at the same time each day
  - It may be taken with or without a meal
• **It is important that you do not miss any doses**
  - If you forget to take a dose, take one tablet as soon as you remember
  - If you forget to take a dose, and your next dose is due within 6 hours, skip the missed dose
  - Do not take more than 1 dose in a day
• **Keep all tablets in your possession**
  - Do not remove labels from the bottle
  - Keep the tablets in a safe place and out of the reach of children
  - Store at room temperature
  - Keep the tablets in its original container and keep the container tightly closed
• **Do not share your tablets with other people**
  - Use only the tablets assigned to you
  - Do not use the tablets if the seal of the bottle opening is broken or missing when taking the first dose.
• **Return remaining unused tablets to the study staff at your next visit**
• **The study staff is here to help and support you. Please contact study staff if you have:**
  - Any questions or concerns
  - If your supply starts to run low
  - Problems taking the tablets. Do not change how much you are taking or stop taking your pills without first talking with study staff
  - New symptoms or worsening of any continuing medical symptoms
