

MTN-041 Male Partner Focus Group Discussion (FGD) Topic Guide

INSTRUCTIONS for the Facilitator: How to use the FGD Guide

1. There are two levels of questions:
 - Primary discussion questions: appear in **bold** text and represent all the topics you will need to cover by the end of the interview. The questions are written to ensure some consistency across FGDs but you are not required to read them verbatim. You may adapt the questions and/or ask them in a different order, depending on how the discussion develops.
 - Probing topics: are indicated with a bullet. If you find that the participants provide little information in response to the primary question, these probing topics may be used to encourage further discussion. You are not required to cover every topic listed.
2. *Instructions/suggestions to facilitator are in italics and [brackets].*
3. P = pregnancy & BF = breastfeeding, which are used throughout the guide
4. The FGD guide is not meant to be used to take notes. Rather, you should use the separate notes form, where you will also insert your initials, the PTIDs of all participants, as well as the date, start and end time of the discussion.
5. Should there be need to conduct an in-depth interview (IDI) in lieu of an FGD, per approval from the management team, this FGD guide can be used for an in-depth interview (IDI) guide.

Before starting the FGD, ensure that all participants have provided written informed consent.

<p>A. Introduction</p>
<p><i>[Facilitator should explain the following points – PLEASE DO NOT READ VERBATIM:]</i></p> <ul style="list-style-type: none"> • Purpose of FGD: <ul style="list-style-type: none"> ○ Discuss practices and taboos during pregnancy and breastfeeding ○ Get your opinions about your female partners using vaginal products and oral medications during pregnancy and breastfeeding ○ Understand what may influence male support of pregnant and breastfeeding women’s use of two HIV prevention methods, a vaginal ring and oral tablets • Affirm to the participants that they are the experts and that all answers are valid: no right and wrong • Invite differing opinions • Remind participants that the discussion is confidential, so personal information won’t be shared outside of the study • Tell participants to use pseudonyms for themselves and anyone else they mention so as to preserve confidentiality. • Participants should identify themselves with their pseudonym each time prior to raising a point and speak one at a time so that the audio recorder can capture everything • Remind participants to keep cellphones silent throughout discussion to avoid disruption of audio recording • <i>[Turn audio recorder on]</i> Ask participants to confirm for audio recorder that they agree to participate in FGD <i>[be sure to get a verbal okay from all members before continuing]</i>.
<p>B. Health, HIV Worry, and Decision Making while Female Partners are Pregnant or Breastfeeding</p>
<p><i>Purpose: To ask about health practices and restrictions for pregnant and breastfeeding women.</i></p> <p>1. What do men in your community do to ensure their wives\female partners stay healthy while pregnant?</p> <p><u>Possible probing topics:</u></p> <ul style="list-style-type: none"> • <i>KEY PROBE:</i> How about while breastfeeding? • <i>KEY PROBE:</i> What restrictions/taboo are there for P and BF women in your community? • What practices or restrictions are for the purpose of the mom’s health versus the baby’s health? • What changes do women make to their diets or activities? Why? • What health behaviors are men expected to change when their wives/partners are pregnant?
<p><i>Purpose: To understand who makes or influences health-related decisions for women while pregnant or breastfeeding.</i></p> <p>2. Who makes decisions about what a woman should or should not do while pregnant?</p> <p><u>Possible probing topics:</u></p> <ul style="list-style-type: none"> • <i>KEY PROBE:</i> How about while breastfeeding? • <i>KEY PROBE:</i> How involved are the men in making decisions about what your partner should/should not do while pregnant or breastfeeding? • <i>KEY PROBE:</i> How do you discuss what you think your wife/partner should or shouldn’t do with her? • From where do men get their views about P & BF? • Do the men’s opinions matter differently if they are married or not to their pregnant wife/partner? • How important is your [wife/partner’s] opinion on what she does while P or BF? • From whom do women ask for advice about P & BF?

<p>3. What fears or concerns do men in your community have about their wives\female partners pregnancies?</p> <p><u>Possible probing topics:</u></p> <ul style="list-style-type: none">• <i>KEY PROBE:</i> How about fears or concerns while breastfeeding?• Where do you think these concerns/ fears come from?• What do men do to alleviate those concerns?• How do you discuss these concerns with your wife/partner?
<p>4. While your wife/partner is pregnant, from whom and for what do you encourage her to seek care? (medical doctor, traditional birth attendant, traditional healer, chief, religious leader, family members, or other key influencer)</p> <p><u>Possible probing topics:</u></p> <ul style="list-style-type: none">• <i>KEY PROBE:</i> How about while breastfeeding?• <i>KEY PROBE:</i> If you or your partner were given conflicting guidance, whose recommendation would you follow? Why?• What would prevent you or your partner from going to the clinic / seeing a medical doctor?
<p>5. What kinds of products do women take, eat, rub on their body or insert to prepare the birth canal?</p> <p><u>Possible probing topics:</u></p> <ul style="list-style-type: none">• <i>KEY PROBE:</i> What about while breastfeeding?• <i>KEY PROBE:</i> How have you been involved with helping your [wife\female partner] prepare for birth or breastfeeding?• <i>KEY PROBE:</i> What kind of guidance do you provide to your [wife\female partner] about medication use during pregnancy?• When is it okay or not okay to take medications, herbs or products while P or BF?<ul style="list-style-type: none">○ From whom did you find out about these “rules”?○ If you/your partner know of conflicting “rules,” how do you decide which to follow?
<p>6. How much do you think pregnant women are at risk of getting HIV?</p> <p><u>Possible probing topics:</u></p> <ul style="list-style-type: none">• <i>KEY PROBE:</i> What about while breastfeeding?• <i>KEY PROBE:</i> How much men worry about getting HIV while their partners are P or BF? Why/why not?• How important is it for a woman to protect herself from HIV before, during and after pregnancy? Why so?• What HIV prevention practices do you or your partner use while she is P or BF?

<p>C. Sexual Activity and Vaginal Practices while Pregnant/Breastfeeding</p>
<p><i>Purpose: To understand changes in sexual activity and vaginal practices while pregnant or breastfeeding.</i></p> <p>7. What is “acceptable” in your community regarding men having sex with their wife/female partner while she is pregnant?</p> <p><u>Possible probing topics:</u></p> <ul style="list-style-type: none"> • <i>KEY PROBE:</i> What is “acceptable” when the woman is close to delivery? • <i>KEY PROBE:</i> What is “acceptable” during breastfeeding? • <i>KEY PROBE:</i> How acceptable is it for men to have other sex partners while their partners are P or BF? <ul style="list-style-type: none"> ○ What about after delivery, while your wife/partner is breastfeeding? • Explain differences in sex practices from before, close to delivery, after delivery and while breastfeeding. <ul style="list-style-type: none"> ○ How soon after delivery do you resume sexual activity with your wife/partner?
<p>D. Ring and PrEP Discussion</p>
<p><i>Purpose: 1.) To understand what men know and think about women using oral PrEP or the vaginal ring for HIV prevention while pregnant, and 2.) To hear suggestions about how to get male support to encourage pregnant or breastfeeding women to use these products.</i></p> <p>As explained before, we are interested in getting your opinion about two different products that women can use for HIV prevention, daily oral PrEP tablets and the monthly vaginal ring. [Give information on products and/or show or provide samples of products to the group]</p> <p>8. Let’s start by talking about daily oral PrEP tablets. What is your first thought when you think about your partner taking oral PrEP to prevent HIV while pregnant?</p> <p><u>Possible probing topics:</u></p> <ul style="list-style-type: none"> • <i>KEY PROBE:</i> What about while breastfeeding? • <i>KEY PROBE:</i> Would oral PrEP be something you would support your partner using while P or BF? Why or why not? • <i>KEY PROBE:</i> What worries do you have about oral PrEP and why? (e.g. about your or your partner’s health, your baby’s health, stigma of taking a daily tablet/ARV, etc.) <p>9. Depending on the culture, it may be permitted or taboo to take bitter medicine while pregnant. How would this interfere with women in your community’s ability to take oral PrEP while pregnant?</p> <p><u>Possible probing topics:</u></p> <ul style="list-style-type: none"> • <i>KEY PROBE:</i> What about while breastfeeding? • What other local taboos or practices would make taking oral PrEP while pregnant difficult? <p>10. Now let’s talk about the vaginal ring. What is your first thought when you think about your partner using a vaginal ring to prevent HIV while pregnant?</p> <p><u>Possible probing topics:</u></p> <ul style="list-style-type: none"> • <i>KEY PROBE:</i> What about while breastfeeding? • <i>KEY PROBE:</i> Would the vaginal ring be something you would support your partner using during P or BF? Why/why not? • <i>KEY PROBE:</i> What worries do you have about the vaginal ring and why? (about your or your partner’s health, your baby’s health, influence on sexual pleasure, etc.)

<p>11. Depending on the culture, it may be permitted or taboo to insert things in the vagina while pregnant. How would this interfere with women in your community’s ability to use the vaginal ring while pregnant?</p> <p><u>Possible probing topics:</u></p> <ul style="list-style-type: none"> • <i>KEY PROBE:</i> What about while breastfeeding? • What other local taboos or practices would make using the ring while pregnant difficult?
<p>12. Would men in your community support their wives/partners using products like these while pregnant? Why or why not?</p> <p><u>Possible probing topics:</u></p> <ul style="list-style-type: none"> • <i>KEY PROBE:</i> What about while breastfeeding? • <i>KEY PROBE:</i> What preferences would men have for their partner using oral PrEP versus the ring? • <i>KEY PROBE:</i> Would fathers be interested in these products for their wife/partner if they are about as effective as condoms? Please explain. • How would using these products clash with your cultural practices and beliefs around P & BF? <ul style="list-style-type: none"> ○ What would help you overcome these clashes with your cultural beliefs or practices?
<p>13. What do you think is the most important factor that would motivate men to support their pregnant or breastfeeding wives/partners to use the ring or oral PrEP for HIV prevention?</p> <p><u>Possible probing topics:</u></p> <ul style="list-style-type: none"> • <i>KEY PROBE:</i> What could be done to help facilitate or encourage men’s support of their wives/partners using these products? • Aside from the woman, who should be involved in her decision to use one of these products while pregnant or breastfeeding? Please explain. • How do you suggest we remove the barriers men may experience in supporting their wives/partners using these products?
<p>14. What suggestions do you have on how we can recruit pregnant and breastfeeding women for a future study in which they will use these products?</p> <p><u>Possible probing topics:</u></p> <ul style="list-style-type: none"> • <i>KEY PROBE:</i> What do you think about the information we shared about the two products earlier? [<i>Show product information again if necessary</i>] <ul style="list-style-type: none"> ○ What can we change or add so people who have never heard of oral PrEP or the vaginal ring for HIV prevention understand the products? • What kind of messages would appeal to men with P and BF partners in your community? <ul style="list-style-type: none"> ○ How could we gain men’s trust so women will be willing to join these studies?
<p>E. Wrap Up</p>
<p>15. Thank you for taking the time to share your opinions with us today. We truly appreciate your willingness to participate and discuss your thoughts and ideas with us. We’ve now reached the end of our discussion. Do you have any additional comments about pregnancy and breastfeeding practices?</p>
<p>16. Do you have any additional comments about oral PrEP or the vaginal ring?</p>
