

In this issue:

- Discussing average drug level over 3 months
- Requesting a difficult session be rated
- Reminder! Labeling sessions correctly

Discussing Quarterly Drug Levels at Months 9 and 12

At Month 9, you will begin to present average drug level from three rings. In Month 9, you will discuss the rings used during Months 4-6 and in Month 12, those used during Months 6-9. Results will be available for each Ring and there will be an overall average level of protection provided for the 3-month period.

To discuss results: First present the Quarterly level of protection, then the level of protection for the individual Rings.

Example: For this visit we will share the results of the level of protection from 3 Rings. First, I will share with you the level of protection you had during the entire 3-month period and then the level of protection from each individual Ring.

Check in with the participant after each result is presented, asking what she thinks about the result and how she feels about the level(s) of protection. You can use the Residual Drug Feedback Over Time worksheet to illustrate:

		Quarterly Result=___			Quarterly Result=___					
High Protection ↑	3									
	2									
	1									
	No Protection 0									
Ring Use Period:	Enr-M1	M1-M2	M2-M3	M3-M4	M4-M5	M5-M6	M6-M7	M7-M8	M8-M9	
Notes:										

Residual Drug Feedback Over Time, v1.1. 26JAN2017 PTID _____

Keep in mind that individual residual drug levels will vary depending on whether the participant changed the Ring before or after the 30 days. For example, if she forgets to switch a Ring after 30 days, the subsequent Ring may be inserted less than the anticipated 30 days, so that Ring level may be a 2 or a 1 even if over the 3-month period she had a Ring inside her every day.

COACH Team Newsletter

★ *Requesting Session Rating* ★

One of the COACH team counselors recently contacted us requesting that we review one of her sessions. She thought she did okay, but she was unsure about it and wanted some feedback so she could do better next time.

We loved getting this request! So, we thought it was a good opportunity to remind all the counselors that if you would ever like feedback on a particular session, we are very happy to review it! Just send Cody and Ivan an email with the session you would like reviewed and we will get the feedback to you as soon as possible.

Labeling Sessions

Now that many participants are past their Month 3 visit, we are noticing some confusion in terms of labeling the uploads of session recordings. Below we remind you how to label your recordings and the Visit Type with the corresponding Visit Number.

YourName_Participant ID_VISIT#_day-month-year

For example: **IvanBalan_1002345_V2_07July2016**

Here is a list of Visit Types and Visit Numbers

- Enrollment Visit = Visit 2**
- Month 1 Visit = Visit 3**
- Month 2 Visit = Visit 4**
- Month 3 Visit = Visit 5**
- Month 6 Visit = Visit 6**
- Month 9 Visit = Visit 7**
- Month 12 Visit = Visit 8**

****Please make sure to include the correct visit number so that we know what type of session it is.****

MTN Regional Meeting

We are really looking forward to seeing everyone at the Regional Meeting in Cape Town in September. I am also thrilled that my whole team from New York will be travelling with me, so you will all have an opportunity to meet and spend time together. We are starting to plan the activities for the COACH team with the hopes of making it a positive and enriching experience.
